RE: Crowngate Construction, 5 The Quadrant, Coventry CV1 2EL

I am writing to confirm that Forum Health Centre appointed Crowngate Construction to construct our new health centre on Farren Road after a competitive tender process.

The total contract value was £1.9m including VAT with the new premises constructed on an incredibly challenging site with our 16,500 patient practice operating from Portacabins to the front of the live building site.

The practice was incredibly impressed by the speed and quality of the build with full demolition and new build completed in just over 8 months and also the absolute professionalism of the team at Crowngate Construction where nothing appeared too much trouble.

We would not hesitate to recommend Crowngate Construction for future construction projects.

Kind regards

T J MORRIS (MR) MA CMgr MCMi MIHM
Practice Manager
