Professional Testimonial

To whom it may concern,

Re: Crowngate Construction Professional Building Services Ltd, 5 The Quadrant, Coventry CV1 2EL

I am writing to confirm that the College appointed Crowngate Construction to construct a single storey entrance extension at Fircroft College.

Our working relationship with the team at Crowngate was excellent throughout the process, both with the workers and management; we were involved at every stage and we were delighted that the works were completed within the agreed budget and timeframe.

Crowngate's professionalism, knowledge and flexibility, along with their ability to liaise effectively with us to achieve the desired outcome, was greatly appreciated.

The project was completed to an excellent standard and the College is thrilled with the quality and speed at which the works were completed.

We would happily appoint Crowngate Construction for any future construction projects that may be required here at the College.

Kind regards
