Crowngate Construction
Professional Building Services Ltd
5 The Quadrant
Coventry
CV1 2EL

25th October 2019

To whom it may concern,

I have worked with Crowngate Construction on a commercial and residential project within the last 12 months and have found their commitment and workmanship on both to be outstanding.

I was particularly impressed with Crowngate's performance during the refurbishment and expansion of an existing Cooperative Food Store in Rugby. As the store had to remain operational during the extensive works, a complex phased programme was needed and integrated with an ambitious design. Even when Crowngate were faced with unforeseeable complications due to the age of the building, they were professional, flexible and completed the works to a high standard without fuss.

Crowngate have been an absolute pleasure to work with, have excellent project management skills and I would not hesitate in recommending them to any of our client's.

Yours faithfully,

James Glassborow BA (Hons), BSc (Hons), MCIAT
Director
