30th June 2020

'CrownGate Construction delivered a first class facility for Atherstone Surgery that will both serve as a temporary Cold Hub for shielded patients during the Covid-19 Pandemic, treating vulnerable patients away from the general public so they feel safe and will also provide a future proofed building for the foreseeable future once General Practice returns to normality.'

This project presented some complex problems along the way but CrownGate maintained their professionalism and determination in ensuring this community asset was delivered on time and to budget despite difficulties faced by the pandemic. We were kept informed at all times of the progress, any issues which arose were dealt with quickly and in the best interests of all involved. Atherstone Surgery were a returning customer, which in itself is testament to our faith in CrownGate and their staff.'

The surgery is very pleased with the service and quality of the work completed by CrownGate Construction and would have no hesitation in recommending them.'

Karen Clarke
Practice Manager
