This was our first major building project, and we couldn't be happier that we chose Raza and the team to carry out the build for us. Raza truly did everything he could to help us save costs and get the project done on time (which they did!). This was a major renovation of a 17th century cottage and at all stages we had great communication and trust in the team. I couldn't recommend them more highly, as the finish is beautiful. Thank you Crowngate!

Regards

Tom Edwards
