February 2024

Hi Raza

Crowngate Construction recently completed a two-storey extension and internal remodelling to my property in Kenilworth. The project commenced in May 2022 with a target completion date December 2022. This was an extremely challenging project to delivery in the timescales, as it also incorporated a full length basement, and we continued to reside in the property with children and a dog.

Raza and his team were exceptional in all departments. Nothing was too much trouble, mess was always kept to a minimum and the quality of workmanship was first class. One trait that was impressive was how the team understood the emotional journey and pressure a project like this puts on families, something this is often missed. Raza always set time aside to build a trusting relationship with us. We could not recommend Crowngate Construction highly enough, they were great.

Cheers Martin & Rhian
